

## 1.

Open the Velcro closures on the “sleeves”.

## 2.

With the blanket already on the horse, gently close the “sleeves” around the front legs.

## 3.

Remove the loose Velcro part that sticks up, place it on the blanket where it works to hold the sleeve in place. Mark the position on both sides.

## 4.

With the blanket off, sew the loose Velcro on to the marked spot on the blanket.

## 5.

Put on the blanket like you normally do and attach the leg covers last. One leg at a time.
